Such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any thing won so widely and so deeply upon the contidence of mankind, as this excelent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to midler forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been complete is us mastery over the disorders of the Lungs and Throat, that the most obstimate of them yield to it. When nothing else could reach them, under the Cherry Pectoral. So complete is us mastery over the disorders of the Lungs and Throat, that the most obstimate of them yield to it.
